Mr surana is a dedicated and knowledgeable person. His deep understanding of job markets and the quality of candidates makes him the go to person for any kind of placement requirements. He has helped me with resume building as well and has explained tips and tricks that i use even today.

The way he extracts information and frames it for the resume is commendable. I have also undergone 6 months of self development training along with graphological corrections which have helped me go ahead in my career..the therapies and lessons through books and development activities have instilled a confident outlook in me..

Thank you surana equity for all the support extended in my career. This has helped me clear CA , CS and MBA finance from IIM Lucknow..i am currently placed with yes bank as a senior vice president in retail banking team.

All thanks to Mr. Surana for being the guiding force and helping me in the Times of maximum need..
